

## Flexible Instructional Day Plan

Automotive Technology B 2025/2026

Mr. Pace:

[jp pace@steelcentertech.com](mailto:jp pace@steelcentertech.com)

Go to Steel Centers web page and click Clever then Canvas to log-in for the day.

Attendance is required and will be taken at the two Zoom meetings scheduled for 8:00 and noon.

The Zoom link is posted in the Flexible Instructional Day module at the top. If you cannot log on at this time due to technology issues email to inform Mr. Pace as soon as possible.

(Remember you can join whichever Zoom meeting fits your schedule the best. Should those two times interfere with your home school schedules let Mr. Pace know as soon as you can so that we can try to accommodate all!)

Lessons will be delivered during the Zoom meeting along with practice assignments that will last for at least 1 hour.

Mr. Pace will be available by email from 7:25 to 10:10 and from 11:45 until 2:30. We may reopen either of the Zoom meetings to further discuss the day's concepts.

Mr. Pace will address any technology needs privately with students after he collects all the flexible instructional day data from the students.

Students not having access to devices or technology that cannot join Zoom and complete assignments on-line will be given hard copies well in advance of FI days to complete the assignments.
