Dear Steel Center Family:

Hello my name is Nolan Bergamasco and I am the teacher of the Building Trades and Maintenance program here at Steel Center for Career and Technical Education. I have 25 years in the building trades industry and a graduate of California University of PA. With my work experience as well as my education; I will use a variety of teaching and learning strategies designed to challenge and support each student and help each learner advance to their fullest potential.

Course Description: Building Trades is an instructional program that prepares individuals to apply technical knowledge and skills to keep a building functioning, and to serve a variety of structures including commercial and industrial buildings and mobile homes. Instruction includes the basics of carpentry, millwork, plumbing, painting, electricity, concreting, bricklaying, tile setting, hardware usage, heating, ventilation, waterproofing, roofing and record keeping.

Students who are enrolled in the program are required to wear a uniform which includes long pants, work shirt, safety glasses and boots.

I am excited for the upcoming school year. If you have any questions please direct them to Mr. Bergamasco at 412-469-3200 ext. 2501. Thank you for your interest in the Building Trades program at Steel Center.

Sincerely,

Nolan Bergamasco
Teacher
